

JOIN US FOR A  
PROJECT WET WORKSHOP

The goal of Project WET (Water Education for Teachers) is to promote the awareness, appreciation and knowledge of water resources. This workshop is fun, hands-on, action-packed, and informational.

WET is for anyone interested in natural resources and environmental education. This workshop is especially useful for formal and informal educators teaching to grades K through 12. Similar to other supplementary conservation and environmental education programs such as Project WILD and Project Learning Tree (PLT), Project WET is perfect for integrating science and math.

The workshop offers educators exciting new activities to use in teaching science, math, language arts, social studies, and environmental studies. Participants will be trained in the basics of how to use Project WET materials and will **receive a free copy of the Project WET Curriculum and Activity Guide** courtesy of the California Dept. of Water Resources, U.S. Geological Study and the US Bureau of Reclamation.

Project WET in California is a project of the Water Education Foundation and is funded by a grant from the U.S. Bureau of Reclamation, Mid-Pacific Region.

**TUESDAY, JULY 24, 2007 - from 9:00 am to 3:30 pm**

**Located at the Granite Bay Activity Center at Folsom Lake,  
Granite Bay**

**Sponsored by the American River Water Education Center  
at Folsom Dam**

Bring comfortable shoes and a \$5 donation to help cover coffee, snacks and lunch.
